Furniture Dimensions and Finishes..... 48

Founded in 1919, Pali represents more than 100 years of crafting fine Italian furniture for families. It almost seems a fairytale, a moment when ingenuity and beauty swirled together in the Friuli region of northeastern Italy and magic was born. What began as a child's discovery of beech planks in the rolling hills of the countryside has evolved into the premier Italian children's furniture brand of today.

The Pali family began making chairs when one of our own children, Secondo Pali, discovered planks of beech wood in a former military establishment tucked into the surrounding areas of his village. An idea was born and put into action. Toiling tirelessly, the Pali family built a reputation for high quality chairs crafted with a sense of Italian beauty and design. The devotion and attention to quality led to a reputation for fine furniture that has grown into a wonderful line of children's furniture. Today Pali has state of the art production facilities and is led by Loretto Pali who has overseen the growth of the company to expand distribution to 35 countries worldwide while still focusing on all the things that is the foundation of Pali. Quality. Design. Family.

Over the years, our designs and style have changed with the times, but what has never changed is our commitment to quality and our love for what we make. Over the last 100 years, Pali has established itself as the leader in Italian design and craftsmanship in homes around the world. Our love of crafting furniture for your family is rooted in our heritage and our 100 year long held values of ingenuity, craftsmanship, and beauty. The attention to detail and devotion that inspired our family in our very first workshop that was tucked inside our family home is what still inspires us all these years later

Our styles may have changed over the years, to be sure that

each of our customers can purchase the perfect piece for their home, but what has never changed is our love and passion for creating furniture that is well made and beautiful and on trend. We hope that with each crib and dresser and chair, the beauty of our Italian heritage and design will be a trusted and beautiful addition to those sleepy nights and joy-filled mornings as you watch your little one grow.

Thank you for inviting us into your homes and letting our family be a part of your family. It has been wonderful to create and build cherished pieces of furniture for your most precious moments.

So sit back, relax, and flip through our catalog featuring our fabulous collections ranging from cool contemporary, marvelously modern, to totally traditional. If you have a style in mind, we have it!
